PROFESSIONAL SUMMARY

Passionate Front-End Developer and 3rd-year Computer Science student with expertise in building responsive, high-performance, and user-centric web applications using modern JavaScript (ES6+), React.js, Bootstrap, and Tailwind CSS. Proven track record in developing real-world production projects, integrating complex REST APIs, and creating dynamic UI features. Complemented by analytical training in Python & Data Analysis (DEPI & NTI) to build smart, data-informed digital experiences.

EDUCATION & ONGOING INITIATIVES

Bachelor's Degree in Computer Science | Misr Higher Institute For Commerce & Computers

Current Level: 3rd Year (Junior Student) | Expected Graduation: 2027

- **Digital Egypt Pioneers Initiative (DEPI):** Enrolled in the Junior Data Analyst Track.
- **National Telecommunication Institute (NTI):** Summer Training in Web Development & Data Analysis.

TECHNICAL SKILLS

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Bootstrap 5, Flexbox, CSS Grid
- **State & API Integration:** RESTful APIs (Fetch/Axios), LocalStorage API, Chart.js, Asynchronous JS
- **Data Analysis & Programming:** Python, Pandas, NumPy, Microsoft Excel (Power Query, Pivot Tables)
- **Tools & Deployment:** Git, GitHub, Vercel, Netlify, VS Code, CapCut, HP ZBook Workstation Workflows

FEATURED PROJECTS

Masrofy - Personal Finance & Wealth Management Web App [\[Live Demo\]](#)

Tech Stack: JavaScript (ES6+), Bootstrap 5, Chart.js, Finnhub API, Exchange Rates API, LocalStorage

- Built a production-ready personal finance app tracking daily expenses with real-time financial health indicators.
- Integrated Chart.js to render interactive visual spending breakdowns (Doughnut & Bar charts).
- Implemented real-time multi-currency converter relative to EGP and integrated Finnhub API for live financial news & crypto trends.
- Utilized browser LocalStorage for complete client-side data persistence with zero backend requirement.

Counselor Ahmed Mandoh Law Office Website [\[Live Demo\]](#)

Tech Stack: HTML5, CSS3, JavaScript, Flexbox/Grid, Custom Animations, Netlify/Vercel

- Engineered a high-end, responsive business landing page for a professional law firm featuring a luxurious Dark & Gold theme.
- Architected intuitive UI navigation, legal services showcases, dynamic consultation forms, and direct WhatsApp integration.
- Optimized frontend load times and assets compression, achieving smooth rendering across desktop and mobile devices.

Interactive Personal Portfolio Website [\[Live Demo\]](#)

Tech Stack: HTML5, CSS3, JavaScript (ES6+), Bootstrap 5, Font Awesome

- Developed a feature-packed developer portfolio showcasing projects, skills, and client feedback.
 - Implemented vanilla JavaScript logic for dynamic project filtering and scroll-triggered animated stat counters via IntersectionObserver.
 - Embedded multimedia blog feeds and interactive testimonial components with responsive layout design.
-
